

JCHEM-CC COIL CLEANER

COIL CLEANER is a clear straw colour liquid containing dispersants, penetrants and wetting agent. Specially designed for use in cleaning oil, slime, scale etc. founds in aluminium air conditional coils.

COIL CLEANER 's "foaming action" pushes contamination outward from the center of the coil for easy rinsing away with water.

FEATURES

Coil Cleaner is designed to:

- be economical-concentrated formula.
- quickly penetrates and help disperse the most stubborn soils.
- provide excellent rinse ability.

PRODUCT SPECIFICATION

| | |
|------------------|------------------------------|
| Appearance | : Clear straw colour liquid. |
| Specific Gravity | : 1.230 ± 0.03 |
| pH (1%) | : 12.5 ± 0.50 |

USE DIRECTIONS

COIL CLEANER is normally used at 1:1 up to 1:10 with water depending on condition of soil. Allow foam to penetrate for 10 to 20 minutes. Reapply without rinsing if foam disappear before soil is loosened. Rinse thoroughly with high pressure water.
