

## **inox** MX11 **CHAIN & BRAKE CLEAN**

**INOX-mx11 CHAIN & BRAKE CLEAN** is a fast acting degreaser for removing brake fluid, oil, grease or oil/grease dirt contaminants from chains and brake assemblies (including linings and pads) before or after disassembly, leaving them bone dry and squeaky clean in a matter of minutes with no residue. In instances where the oil/grease and dirt is caked on, a second application maybe required and at the same time it is advisable to use a firm non-metallic bristled cleaning brush to help loosen any caked on contaminant.

**INOX-mx11 Chain & Brake Clean** readily dissolves oil, grease and grime and can be used as a degreaser for car, motorbike, truck, boat, industrial, mining, farming equipment parts, gears, cables, engines or on any equipment where there is contamination from any oil, grease or oil/grease dirt mixtures.

**INOX-mx11 Chain & Brake Clean** is a solvent based cleaner that dries in minutes and leaves no residue.

### **APPLICATIONS**

**INOX-mx11 Chain & Brake Clean** readily dissolves brake fluid, oil, grease and grime and can be used as a degreaser for the following.

- Disc Brake assemblies, disc brake pads - before and after disassembly.
- Brake shoes and backing plates, master and slave cylinders.
- Brake cables, inner control and steering cables.
- Clutch plates and pressure plate assemblies
- Petrol and diesel engines and their component parts.
- Motorbike, bicycle and go-kart chains and sprockets.
- Endless, machinery hoist and vehicle hoist chains.
- Forklift hoist and industrial machinery chains and cables.
- Winch cables and chains
- PTO's, farm and mining machinery chain and sprocket drives.
- All machinery and equipment component parts

**MOTORCYCLES:** **INOX-mx11 Chain & Brake Clean** is ideal for cleaning gritty oil and dirt residue off bike chains and sprockets, leaving them clean and dry and ready for lubrication. **INOX-mx9 No Chukka Chain Lube** with PTFE is recommended for motorbike chains & sprockets.

**INOX-mx9 No Chukka Chain Lube** with PTFE can be used quite effectively to lubricate most chains and cables, but for heavier applications, **INOX-mx8 Spray Grease** is more suited for these types of applications.

(**INOX-mx8 Spray Grease** is a Lithium complex and PTFE based extreme pressure, high temperature grease that is highly resistant to water wash-out, salt and chemicals).

**CAUTION:** When using **INOX-mx11 Chain & Brake Clean** avoid direct contact with rubber and Perspex and prolonged contact with neoprene and plastics. Use in a well ventilated area.
